This was a joint online event for El Rio and Nyeland Acres. Sierra Club had Nyeland Acres and Friends of Santa Clara River (FSCR) had El Rio. There were several dozen attendees. The discussion covered a wide array of topics from groundwater to the Santa Clara River basin, how water is delivered from rainfall or from the north via canals and pipes, water quality regulation, climate change impacts and agriculture. It was translated live into Spanish and recorded. The water talks presentation was part of on-line zoom call by Supervisor John Zaragoza. The water talks portion lasted two hours and most of the viewers stayed on the entire time. People also asked questions in the chat.
