Community Engagement Partner	TreePeople	Event Format	In-Person Meeting

Description:

Findings from the GLAC Strengths & Needs Assessment were shared and discussed with community members as a way of ground-truthing the results. Information was gathered through verbal responses and WaterTalks posters.

Core Questions and Responses:

- Did the water-related concerns seem accurate from the Assessment: Yes
- Did the community-related concerns seem accurate from the Assessment: Yes

Comments and Discussion:

The need for green space: more shade trees, more plants. Also water conservation projects (one resident has a gray-water system at her home that uses washing machine water to water avocado tree). More trees, more shade to fight heat, more local water collection before it goes to the street.
