TreePeople's WaterTalk in San Fernando took place at the First United Methodist Church of San Fernando in partnership with San Fernando Neighborhood Watch Group, San Fernando PD, and First United Methodist Church.

The meeting's attendees were all over the age of 18 and diverse, including Latino, White and Asian residents. The primary topic of discussion was drinking water quality, water capture and groundwater. A major concern among residents was the overall quality of the drinking water and the lack of confidence many residents feel that it is safe to drink.

TreePeople included a presentation and elicited feedback on other stormwater capture projects in the City of San Fernando.
