### Description:

Residents were given a brief overview of the WaterTalks program. They were then asked to share about 1) their communities strengths, 2) community needs and 3) water related issues. The meeting was available in both English and Spanish.

### Questions / Comments:

Community strengths include diversity, and Polytechnical HS as a resource and hub. Needs and concerns include homelessness, blight, gangs, air quality issues from DWP power plant and a large landfill, drinking water quality, localized flooding and lack of tree canopy.
